manufacturer of Paint Driers, PVC Stabilizers, FRP Accelerators. We are backed by a group of technocrats and professionals having decades of experience in this field. We have vast experience and exposure in the industry through our best manufacturing facilities supported by latest

Paint Driers

PVC Stabilizers

technology. We have gained the appreciation of our esteemed customers in a short span of time through our consistent supply of quality product and service committed to them. Our quality control standards enable us to deliver tested and inspected range of products to our clients thus making them best in the industry.

Cerium

Copper Naphthenate

Iron

Lead Octoate

Manganese

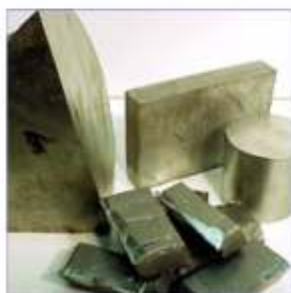

Calcium

Achievements: We have changed the old standard product system and came out with new pattern of products better than the standard products. These products are well appreciated by our customers. For first time we offered products with higher metal contents in Copper, Manganese and Iron. We have developed colourless Cobalt Accelerators for FRP and colourless Cobalt Drier for Clear Varnish.

Marketing Strategies: We have dealers in Chennai and Bangalore. For the other places we supply directly.

Recent Developments: Our research and development (R&D) efforts believed in delivering technical updated range of paint driers and PVC stabilizers to our clients. We work hard on understanding our customers needs from time to time and works on the primary goal of producing the products as per the technological advancement. Our R & D department work under the direct control of promoters which is continuously engaged in developing new products for Paints, F.R.P.and P.V.C. Industry.

Zirconium

Fiber Reinforced Plastic

Product Promotion: Through website and our sales staff. We have a team of dedicated employees who perform their nature of job very efficiently & effectively. Our technical & non technical staff are also engaged in the continuous testing & inspection work to improve our range of products. The joint efforts of our team such as personnel from production, administration, accounts and other department helps us in the various processes of our company.

Future Expansion Plans: Planning to double the capacity in 2012.

Mantras to become successful entrepreneur: Hard work and commitment to the customer. Quality products with lower cost and latest upgrading technology.

Brand Values: In a short span of 12 years A. A. Chemicals became a brand by itself.

Participation in Corporate Activities: Donated school uniforms for backward area schools.

Cobalt Octoate & Naphthenate

Salient Features: Running a manufacturing unit is a tough job. Sincerity to your organization pays you when you become owner of an organization.
