Parks & each & every industry where any types of gases are used in process or as fuel.

**Recent Developments:**

Digital Potable Oxygen detector which shows reading on digital display from 0 – 25% of O2. Also have Toxic & Combustible Digital Detectors, range from 0 – 1000 PPM or 0 – 100% LEL.

In addition to that Abhitron India has also designed pocket type Alcohol Breath Analyser which is now being used by Mumbai Police for catching drunken drivers

**Facilities & Motivational plans for staff :**

In – house training programs for up gradation of knowledge in their respective field.

**Your mantra (secret, steps) to become a successful entrepreneur :**

Time is Money, Never waste it! Keep on doing R&D.

If you don't satisfy your customers then somebody else will!  
- Hence I always tried to maintain the Quality of our products & proud to say that many companies are using our Gas Detection System for more than 10 yrs from the supply.

**Brand visibility :**

Ours is the only Gas Detector System in India with 10 Lights Bar graph

**Future plans :**

Micro-processor type Gas Detector System

**Corporate social responsibility :**

Guidance to other physically challenged people through Handicapped Institutions

**Proudate things about your company & products :**

Ours is the only Gas Detector System in India with 10 Lights Bar graph which can detect almost 300 various hazardous gases.

Our Gas Detector System is very easy to install because we supply it in the Ready form (kit form). Till now we have supplied to more than 3000 clients all over in India & in abroad. We are proud to say that we have not provided installation service to any company. The installation is so easy that local electrician can also do the correct installation in factories if he follows our instruction manual.

**INDUSTRIAL GAS DETECTORS**  
**CONTROL POLLUTION BY JAPANESE WAY** 3 LEVELS 10 LIGHTS

- The only company in India with 10 LIGHTS BAR GRAPH
- AVAILABLE : 1,2,5 & 15 Channels Control Units
- APPROVED BY : CMRI, DGFASLI, CCOE & BIS
- Detects Gases, Fumes, Vapours with Alarm
- Industrial Type SMOKE DETECTOR is also available
- Customized detectors for more than 300 Hazardous Gases
- The Ultimate Solution for Industrial Safety under one roof

**Sensitive to :**  
 All Toxic & Combustible Gases such as NH<sub>3</sub>, HCN, H<sub>2</sub>, LPG, HCL, CL<sub>2</sub>, HF, H<sub>2</sub>S, NO<sub>2</sub>, SO<sub>2</sub>, EO, HCL, CO etc. including Organic Solvents, Vapours & O<sub>2</sub>.

**Usage Areas :**  
 Chemical, Pharma, B&D, Labs, Fumaces, Fertilizers, Agri, Oil & Solvent Plants, Hotels, Food & Breweries, Schools, Hospitals, Heat Treatment Plants, Gas Bottling Plants, Nuclear & Atomic Centers, Automobile Industries, Railways & I.T. Industries & You Name It!

**24 Hours Operation**

**5 AWARDS WINNER**

**COMPACT PORTABLE MODEL**

- Combustible Gas Detector
- Toxic Gas Detector
- Universal Gas Detector
- Process Type Multi Gas Detector
- Hand Held / Pocket Leak Detector
- Process / Equipment Leak Detector

**SECURITY PRODUCTS**

- Smoke Analyser
- Signal Alarm Analyser
- Alcohol Breath Analyser with printer
- Heat Detector

**Active Gas Transmitter With ATEX CERTIFICATION**

**Signature :**

- Calibration Facility is available for any type of Gas Detector System
- We serve repair for repairing of Old Gas Detectors
- Since other companies are using a cheap supply which has disadvantage of never getting damaged in 1 - 6 yrs. when as we use I.C. on life of detector remains long lasting for 10 - 12 yrs. Conditions Apply!
