

M/s Eskay Industries

Selected 2012-14

*Providing High Quality
Plastic Products*

*Manufacturer of
Plastic Products*

Director : Shri S. K. Badarinath

Established : 1991

Products: Molding of Plastic injection components. Development of import substitution for various plastic components and Allied products. Transformer cores. Display Filters. Enclosures for – Electronic Meters, Electronic Times, Electronic Instruments, Electronic Weighing machines, Electronic Musical Instruments and many more.

History: In 1991 we started working with a sick industry and our turnover was around Rs. 2 Lakhs. By our hard work and concentration on quality, we initially satisfied our few customers. Later by 2000, we expanded by buying few more machines and now we have more than 15 companies as our regular customers.

Achievements: Our present our turn over is around 90 lakhs to 1 crore. We are a customer friendly and customer satisfying company and thus we have been awarded from companies like Enercon for

- Best continues improvement award.
- Best supplier job work
- Best Sub contractor.

Marketing Strategies: Marketing is through our customer's recommendations and marketing web sites like India Mart and Just Dial.

Recent Developments: We have maintained the standard of the quality and punctuality in the delivery of the finished goods.

Brand USP: To satisfy our customers, with best possible minimum rates and with a high standard quality for a healthy competition in the market. Our Quality and Services make our brand different from others.

Plastic Moulds

Electric Enclosures

Future Plans: To increase the capacity of the machines by adding higher tonnage. Convert the Semi Auto moulds to fully auto moulds. Reduce the machine cycle time.

Mantras to become a successful entrepreneur: Diligence, Determination, Dedication and Trust in God.
