

KARL LOGISTICS

MINES & MINERALS.....

Selected 2012-14

Partners : Mr. Levino Dias and Mrs. Anita Dias

Established : 2008

Products: We are basically into logistics, shipping, trading, import and export of minerals and other commodities. The promoter of the company started his shipping career in 1999. Thereon started own firm in 2008. We are traders and exporters of a various commodities and minerals like iron ore, copper scrap, HMS1, HMS2, Rice.

History: Karl Logistics was established by young entrepreneurs in the year 2008. The firm was promoted by strong relation of brother and sister. We have successfully established a strong market for our trade and are on the way for an international venture.

Achievements: Karl Logistics have made a distinct mark in the trade market. We have opened our branch office in Mumbai.

Market: Local, national and international market through our various Distributors.

Recent Developments: Recently we have entered into trade and export of additional commodities like rice and corn. We have opened office in Dubai for the same.

Promotion: We promote our products and logistics services through our website.

Expansion Plans: We are in a process of acquiring a mine in Australia and a steel plant in India. We are also acquiring a jetty in Goa and planning to operate it with all modern amenities.

Mantras to become a successful business: Hard work, Confidence in your hard work, Sincerity and 100% faith and deep trust in the Almighty. These factors will always keep you going.

Brand Value: Quality and Quantity are the key words to success. We believe in them and try our best to maintain them.

Corporate Social Responsibility: Karl Logistics has always been upright for charity and sponsorships in social and religious sector. We are in the process of constructing a primary school. We donate regularly to educational societies. We have developed a garden / jogging park for senior citizens. We are in process to develop the road dividers planning for Green Goa.
