

Karnataka Industrial Rubber Products

Director : Mr. John Thomas

Established : 1976 and boasts of over three decades of continuous operations!

Products: KIRP's key areas of business are rubber lining lagging and similar services for large pulleys, conveyors, rollers etc. In addition the company produces rubber products such as rings, vibration pads and many other extruded items.

History: The Company was initiated under the leadership of Late Mr. P. A. Cherian with focus on offering rubber related services. Soon the company diversified into manufacturing of rubber products, custom made for specific industries. KIRP established itself as a single point solution for most rubber related products, especially for manufacturing industries and infrastructure projects.

Achievements: A dedicated clientele for over three decades and providing speciality services for key industries such as MHE manufacturers, sugar , cement and other agro product sectors.

Market: Being an SME we normally service clients with our line of expertise. Our focus has been more on service and quality than the scale of business. The company will soon be undertaking a major expansion to cater to its ever growing clientele.

Brand Value: Customer satisfaction. Our dedicated clientele is proof enough that there is no compromising when it comes to quality and services. We will keep raising the standards as we move forward.

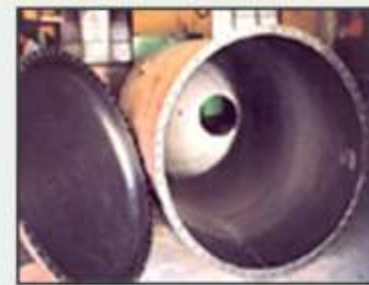

Brand USP: At KIRP we assure you of a legacy of over three decades established through our diligent service, eye for details of uncompromising quality.

Expansion Plans: The Company is looking to add another 10000 sq. ft. of shop floor which will be “state of the art” and a complete process integrated product delivery model. This will enable scalability and provide specialty service for our niche customers.

Recreation Facilities: While the company maintains standards and remuneration above industry benchmarks for its workforce, we have been upfront in providing them with healthcare benefits advisory on family upbringing, advisory on monetary management and personal wealth creation and so on. To add to this the management encourages its staff to participate in local community events and social activities.
