BRAND VALUE

KSC Masalas are not like the ones you will find on the shelves of Super Markets, Hypermarkets or Grocers.

KSC Blends contain Quality ground spices and have NO FILLERS - NO PRESERVATIVES - NO ARTIFICIAL COLOURS. Each spice is carefully selected to gratify your palette. Since most of the ingredients are in the blend, you can prepare meals at an amazingly quick pace. You use less quantity of spice too as the Masala is scientifically developed and has all what it needs for optimum taste.

Today with the growing stress on consistency in food churned out by the food services industry & food chains, the demand for developing the product and also manufacturing and supplying has become significant. KSC has now embarked onto manufacturing and supplying the creations.

KSC has also decided not to ignore the "Aam Aadmi" and hence will retail some products for them too. These will however be in small sachets 'one time use' to make it economical for the "Aam Aadmi" A large manufacturing facility has been established in Rural Raigad with all the food safety standards.
